TEKNOLOJİLER

19-20 EKİM
Yeditepe Üniversitesi

About the Event

Last year, the second Free Web Technologies Day was organized jointly by Turkish Linux Users Association and Yeditepe University Computer Society. In 3 parallel sessions, over 40 people presented 34 different topics, with about 750 participants.

With the experience of past events, we aim to bring together everyone interested in free software and web technologies in Turkey, for increasing awareness of free software and its usage in web applications.

We invite you to become a sponsor of the third Free Web Technologies Day, It will take place in 19-20 October 2012 in Istanbul Yeditepe University with about a thousand participants from universities, public and private sector, including web designers/programmers, students and free software enthusiasts.

Best Regards,
Adil Akbaş
Turkish Linux Users Association
